40 YEARS OF OUTDOOR INNOVATION.

Congratulations on the purchase of your Formetco powered by Ad-Tech Electronic Message Center sign! Please take a moment to fill in the relevant details of your Electronic Message Center sign here. You will need to enter this information into the accompanying PrimeVue software upon installing your sign. This information will also be necessary if you ever have a need to contact one of our customer service representatives at a later date. The required information can be found in the enclosed packet that came with the sign. If you have any difficulties finding the information or installing the sign, please do not hesitate to contact our support staff. For future ease of reference, contact information is on the bottom of this page.

Mailing address: Formetco, Inc. 3270 Summit Ridge Pkwy Suite 240 Duluth, GA. 30096

Introduction

PrimeVue 2 is the software program that accommodates the Electronic Message Center sign in order to deliver custom messages and an easy to manage schedule. The message editor will provide you with a user-friendly platform that enables you to create unique advertisements that are easily changed out as often as desired. The scheduling features allow you to have total flexibility when managing various messages.

System Requirements

- Windows 7, Windows 8, or Vista
- Screen resolution of 1024x768

PrimeVue 2 Link

http://72.21.244.20/primevue2/setup.exe

If your web browser does not automatically begin the process of downloading PrimeVue, or if you are holding a paper copy of this manual, simply open your web browser (Internet Explorer, FireFox, Safari, etc.) and type the above address into the address bar. Once Setup.exe has finished downloading, you will need to activate the file (most likely by double-clicking it) and follow the on-screen instructions.

Initial Sign Setup in Primevue 2

The first screen you will see upon starting PrimeVue 2 is the sign selection screen. If this is your first time running PrimeVue, you'll need to click the double-arrows in order to continue. Once your sign is initially set up, you will not have to repeat these steps.

If your sign has already been set up, proceed to page 5

Make sure that the sign is connected to your network or your computer through the USB Ethernet

- Select **New** and then **Import**
- > If you are not able to connect, please call Formetco Technical Support

If you get a pop up regarding Windows Firewall, select all of the check boxes and Allow access
